

Hello 4th grader!!!

We are going to have a **GREAT** year together! Before we get started, I hope you have a wonderful, safe summer! My wish for you is to get outside in the sunshine, play sports, go swimming, have picnics, take walks, ride bikes, and hang out with friends! Don't forget to wear your sunscreen!

Besides playing and hanging out with friends, make some time to **READ**. It doesn't have to be a long novel. It can be a magazine, a graphic novel, or anything you choose. Go to your local library and check out some books for **FREE**. Also, don't forget about the Summer Reading Packet.

Math is also another subject to continue practicing over the summer. You have the Math packet that will help you stay focused on your Math facts. Even while you're riding in the car, have your parents ask you some math problems. However, there are many fun **FREE** multiplication games on the website Multiplication.com.

I hope you have a very fun summer, and I look forward to seeing you in September.

Love, Mrs. Stewart
