

Welcome to Saint Aloysius School!

Hi,

My name is Mrs. Hogan and I will get to be your fifth grade teacher. In fifth grade, we get to dissect owl pellets in science to see what owls eat. In social studies, we will learn about the fifty states. After we have finished discovering interesting facts about the states, you will create a state float on a box. You will carry your state box float in our USA parade around the school. Everyone loves a parade! Those are just a few of the fun things we will do in fifth grade.

Welcome to fifth grade! I'm so excited to meet you. Thank you for joining our fifth grade class.

Mrs. Hogan
