

Dear New Friend,

Welcome to Fourth Grade! I am so excited you are coming to fourth grade at Saint Aloysius Parish School! We are going to learn so much together! Some of the things you will be learning are: multiplication facts 0-12, long division, and fractions. We will also discover all of the amazing things we have right here in the state of Pennsylvania.

Over the summer try to read a new book and practice your multiplication facts. Also, don't forget to have fun and spend lots of time outdoors! Finally, over the summer I would like you to complete the summer packet for math and reading. This packet was sent home on the last day of school. It can also be found on our school website: www.saintaloyssiusschool.com under academics/summer enrichment. I hope you have a wonderful summer!

Sincerely,

Your 4th Grade Teacher
