

Dear Families,

Welcome to the 2023-2024 school year! I look forward to working with you and your child this year. Your child will develop cognitively, socially, emotionally and physically through discovery play in small and large groups. Our emphasis will be based on daily routines, morning meeting, sensory-based learning, learning centers, story time, parallel play, teacher guided play, all while understanding how Gods love and care will help us grow into kind and loving friends, learners and members of the community.

Our weekly focus will include themes, letters, numbers, shapes and colors. The children will have four specials: Gym, Library, Art and Music. We will have many adventures together as we learn about each other and the world around us!
